Tariffe e contributi dai datori di lavoro 2012

PIANO C

Applicazione

La aliquote dei premi sono, all'interno del piano di assicurazione, diversi tra uomini e donne. Nella prima colonna di ogni pagina è riportato il salario mensile AVS. Nelle colonne successive sono dati, in franchi e in percentuale, per tutte le fasce di età, le detrazioni mensili da applicare ai salari AVS degli impiegati. Per ricavare le detrazioni da applicare, occorre stabilire il punto di incrocio tra la colonna 'Anno' e la riga 'Salario mensile AVS'. Alle detrazioni riportate bisogna aggiungere i contributi dei datori di lavoro di uguale importo. I contributi dei datori di lavoro non devono essere addebitati agli impiegati. Se si pagano salari di importo superiore a quello più alto della tabella, all'ufficio si possono richiedere tabelle estese. Le trovate però anche nella homepage www.pksl.ch.

Per aziende che determinano i contributi come percentuale dello stipendio coordinato, sul retro della tabella sono riportati i premi e un esempio di calcolo del salario coordinato e dei costi di gestione.

Alla emissione della fattura, all'azienda viene inoltre fatturato un contributo fisso annuale di CHF 75.00. Il contributo ai costi di gestione, riscossi in percentuale, viene ora limitato ad un massima giornaliera di CHF 1.00 e persona.
