Arbeitnehmerbeiträge 2008

PLAN A

Anwendung

Die Prämiensätze sind innerhalb des Versicherungsplanes zwischen Männern und Frauen verschieden. In der ersten Kolonne jeder Seite ist der monatliche AHV-Lohn angegeben. In den folgenden Kolonnen sind für alle Altersgruppen die auf den AHV-Löhnen der Angestellten vorzunehmenden monatlichen Abzüge in Franken und Prozenten angegeben.

Um die anzuwendenden Abzüge zu ermitteln, ist der Schnittpunkt zwischen der Kolonne 'Jahrgang' und der Zeile 'monatlicher AHV-Lohn' zu bestimmen. Die Abzüge sind in Franken oder Prozenten des AHV-Lohnes angegeben.

Zu den angegebenen Abzügen sind zusätzlich die Arbeitgeberbeiträge in der selben Höhe zu erbringen. Diese Beiträge dürfen nicht den Angestellten verrechnet werden.

Für Betriebe, die die Beiträge in Prozenten des koordinierten Lohnes festlegen, sind die Prämien und ein Beispiel zur Berechnung des koordinierten Lohnes auf der Rückseite der Tabelle angegeben.

Werden Löhne ausbezahlt, die über dem höchsten in der Tabelle aufgeführten Lohn liegen, können erweiterte Tabellen bei der Geschäftsstelle angefordert werden.
